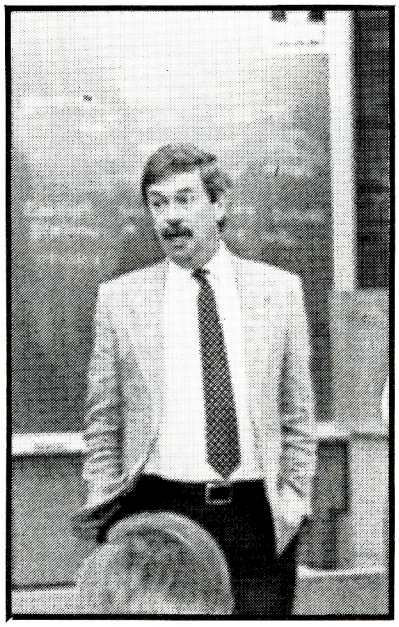
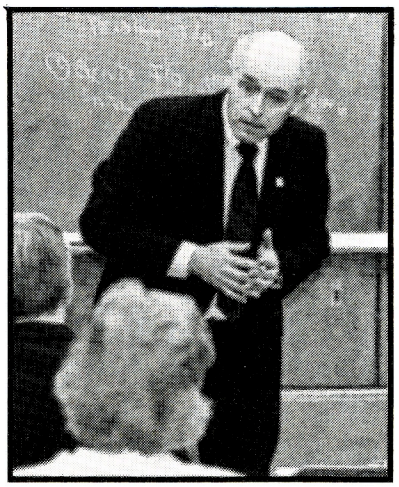
ROBERT BETTS
WMSE Director
"Is MSOE building a separate entrance for WMSE?" An alternate entrance to WMSE will be built this summer. This entrance will go from the radio station directly outdoors. THE RADIO STATION WILL NOT RETURN TO A 24-HOUR FORMAT.

DR. JAMES GREEN
Registrar
"Why aren't more required courses offered more than once each year?" More classes are now being offered all three quarters. ME and EE level 2XX course offerings have been expanded. If a group of students want to take a course that is not offered a particular quarter, they should contact the department chairperson to see if a section can be created.



PATRICK J. COFFEY
Student Life Director
"Why aren't child and health care available at MSOE?" Child care programs are not available because of space, financial, staff, and certification restraints. This is not a closed issue, but the current demand does not warrant a child care center. A nurse will be on campus beginning next fall. (S)he will be on campus for twenty hours each week and probably will have an office in residence halls. Free health care and medical testing will be provided to all faculty and students. Prescriptions will not be free.



DR. FRANCIS CANNON
College Relations Director
"Why don't students ever see teachers being reviewed?" Teachers are reviewed every four to eight years by their department and department chairperson. Student input is the major factor the department takes into consideration. Write a note of constructive criticism to a department chairman if you have complaints about a specific teacher.

MARY ANN SCHMIDT
Library Director
"Why isn't the card catalog placed closer to the books?" The card catalog is placed near the reference desk to help staff who need fast access to the card catalog to answer student phone calls. Students who do not know how to use the card catalog are encouraged to ask for assistance.
